[Despatch Abstract.]

Establishments - Agriculture - Store-keeper, for the Agricultural
Research Station. Sirugupota - Sanctioned.

From Rao Bahadur B. Viswa Nath, D.Sc., F.I.C.,
Director of Agriculture,
M a d r a s.

To The Additional Secretary
to Government,
Development Department,
M a d r a s.

No. Roc.A.4-746/44 dated 30th May 1944.

Sir,

Sub: Establishment - Storekeeper - Agricultural Research Station, Siruguppa - entertainment - proposals.

I submit below proposals for the (entertainment) of a Store-keeper at the Agricultural Research Station, Siruguppa.

2. The station was opened in the year 1937 and it is being continued on a temporary basis - the present sanction accorded in G.O.No. Ms. 488 Public Works dated 18th February 1944 and communicated with Development Department Endorsement 10890-AII/44-1 dated 21st February 1944 being up to 31st March 1947. The clerical staff provided for the station in G.O.No. 2952 Public Works Department dated 12th December 1936 is one Farm clerk each on Rs. 30-55 and this staff is being continued up to now. No provision was then thought necessary for a Store-keeper as the stock of articles and produce to be handled were small and the transactions and sales were very few. There has, however, been a gradual increase year after year in the stock of all kinds of grain, cattle food and miscellaneous articles besides Deadstock, library stock and oil engine stock as can be seen from the following statement of stock handled and value thereof.

	Grain stock. lbs.	Cattle food. lbs.	Miscellaneous stock.	Total value. Rs.
1937 - 38	16976	111778	5481	2585
1938 - 39	34762	104580	48185	1735
1939 - 40	39036	49598	52801	1169
1940 - 41	80267	79107	36493	2095
1941 - 42	69911	117339	38957	5685
1942 - 43	90050	218559	34914	9871
1943 - 44	77341	194747	14636	9693.

The receipt realised for the station given below - would also indicate the increase of work in the store transactions of the station.

1937 - 38	89
1938 - 39	293
1939 - 40	466
1940 - 41	1370
1941 - 42	1784
1942 - 43	6038
1943 - 44	4840

The clerical work connected with the stores including preparation of connected returns has consequently considerably increased in recent years. The produce of the station has to be periodically dried and carefully preserved against weevil and rat attack and stored properly with necessary labels. Besides the bulk produce, account have to be kept of a number of varieties of millets, cotton and other seeds required for experimental trials and for cotton and jonna breeding schemes. With the opening of the Bagavathi Demonstration Farm, more seeds and materials will have to be stocked and issued to ryots.

3. In the absence of a Store-keeper these items of work were being entrusted to the executive and clerical staff on the station, but now due to the additional work thrown on them on account of larger area under cultivation, increase in the number of experiments and the varieties of crops under trial all round the year on the one
